

WorldPride Intent to Bid Agreement

In stating an intent to bid for the license to host a WorldPride event, _____
(the bidding organization, hereafter referred to as "Bidder") agrees to the following:

1. The Bidder will adhere to the bidding requirements and timelines stated in the WorldPride Standing Rule. The Bidder recognizes that the Standing Rule is a living document and prior to taking any action under the Rule, will confirm with the WorldPride Co-Chairs that the Bidder has the most current version of the Rule.
2. The Bidder will adhere to InterPride's campaigning policy. The Bidder recognizes that this policy may be altered during the bidding process and agrees to engage in open and transparent communication with the WorldPride Co-Chairs and the Co-Presidents regarding any issues that may arise due to changes to the policy.
3. The Bidder will adhere to InterPride's Code of Conduct and will be responsible for ensuring that the Bidder has the most up-to-date version of that document.
4. The Bidder agrees to adhere to any relevant InterPride bylaws, standing rules, policies, or procedures not explicitly mentioned herein.
5. The Bidder agrees not to make any disparaging remarks about InterPride, including InterPride's Board, staff, or volunteers, or about any competing bidding organizations or their respective Board, staff, or volunteers.
6. Recognizing the diversity of the Pride movement, the Bidder agrees to ensure that the bid documents and proposed WorldPride events reflect that diversity.
7. The Bidder understands that they are merely bidding for an opportunity to host WorldPride. The Bidder understands that the winning bid will be selected by the membership, and that there is no guarantee that the Bidder will be selected. The Bidder agrees that the results of the vote are final and may not be contested for any reason. The Bidder further agrees that InterPride is not responsible for any losses, financial or otherwise, that the Bidder incurs in the course of bidding for the WorldPride title.
8. The Bidder understands that they will be responsible for paying an application fee, and that failure to do so by the deadline will disqualify their bid application. The Bidder further understands that they will be responsible for paying a licensing fee should their bid be successful, and that the licensing agreement will impose additional requirements upon the successful bidder, many of which include financial obligations.
9. The Bidder agrees that the membership vote will grant the winner with a provisional license and that the granting of the permanent license is dependent upon the winner and InterPride reaching an agreement on the specific terms of the licence.

I, _____ (individual) affirm that I am authorized to enter into this agreement on behalf of the Bidder.
